To: all advisers who entered yearbooks in the 1984 (1983 books)

The judge has sent all critiques and her selection of the 12 winners for 1984. A list appears below. It gives only book name and school. Other details such as the adviser's name, editor or editors' name will appear in the March issue of "The School Press Editor."

The books themselves have not been returned. When they are, the remainder of the contest will occur. From the 41 books in the contest, the remaining 29 will be checked with first and second places certificates awarded for:

This "early" mailing of critiques without full name recognition was done so that the critiques might still be of some value in working on the 1984 book.

It has been strongly suggested and maybe adopted for next year.... have all books for the Golden Dozen turned in by October 14, Results by mid-November. Thus, critiques become of more help. If a book appears later than that and was scheduled for spring, summer or early fall, then that is a part of the job.....on on-time delivery!
